Artist Statement

I paint landscape, figure, portrait and still life, both in the studio and outdoor on location. My intent is the exploration of the visual/painting language in whatever way and with whatever subject matter moves and challenges me in the moment. I find the best relationship to painting is to consider everything that I do as an experiment and exploration in learning—to paint, to understand visual concepts, and to see and appreciate what exists in the world around me as well as my own vision.
