

Color Confidence

or How to Mix 'MUD' on Purpose

This class will unleash some of those mysteries of color mixing and make sense of color theory.

Learn to...

- mix harmonious color combinations.
- know what color you are actually looking at.
- chose colors to make a painting sing.
- take the guesswork out of aerial perspective.
- make beautiful flesh tones.

There is no painting ability necessary for this class as this is not a 'painting' class.

All supplies will be waiting for you - just show up and learn.

You will receive a bound binder for all of your exercises and handouts. The group will be small for personal attention. This class is an intense and informative 16 hours (not including lunch hour).
