October 1 - 9, 2010
Greek Isles Cruise
An Art Experience Workshop

CLASS STRUCTURE

Come journey with us through the ancient world of Greece on this Art Experience Workshop. Participants will go from port to port and experience hidden treasures which will be interpreted in various art forms such as plein aire painting, photography, collage, mixed media painting, and poetry. All of this will be put into a beautiful hand-made memory book that will capture the essence of Greece.

Participants will enjoy a private painting tour in Greece and capture some of Greece's most beautiful locations in your paintings. Painters enjoy private shipboard and post cruise painting classes as well as free time to explore our many ports of call. Express your individual style and freedom! Our trip is so unique in its approach and format - two instructors, two different painting styles - you will come away with one unique experience not found any where else.
