

Provence, France

September 20-29, 2015

Thanks for your inquiry about this art trip.
I hope you will join us!

This is not a workshop! This is an event for both artists and non-artists. Dee and other well-known artists will be painting on location and artists are invited to paint with them although there is no formal instruction.

Painting is not required and many participants may want to explore the quaint villages and countryside so inspirational to the French impressionists. This is a great trip to bring along your non-painting spouse or friends. They can enjoy sports, tours, museums, restaurants, shopping, or just relaxing in this beautiful place. And, as you know, the camaraderie of a group of artists is always exciting.

The trip **starts and ends at New York JFK International Airport**. Flights from all parts of the country to New York JFK can be obtained reasonably since this is a major hub. The transatlantic flight is an overnight flight via Iberia Air.
