

PENCIL PORTRAITS BY RITA KIRKMAN

I have been creating quality hand-drawn pencil portraits from your photos since 1985. I use black and white conte pencil on a fine quality acid-free art paper. All 8x10 portraits include an 11x14 mat. 12x15 portraits include a 16x20 mat.

I work directly from one photo when drawing a face. Your photo should be very clear in detail. A face of at least one inch is preferable. A 4x6 closeup is ideal. A specialty is working from old antique photos, which can be very clear even when small. If necessary, I can combine separate photos into one group portrait. All photos are handled and returned with tender care!

Please plan on 6-8 weeks for completion and delivery. However, there are certain times when I may have a faster turnaround, so check with me first!
